

## QUALITY POLICY

### STATEMENT

RMP is a well-established, reliable and respected company in the abrasive blasting, protective coatings and corrosion control industry. We deliver sought-after services and innovative solutions to a range of assets.

Quality is imperative to RMP, and as an integral part of the business – we have complete commitment to it. This includes quality documentation, quality work and quality results, driven by a well-defined, structured Integrated Management System.

At RMP, we value our clients and all associated stakeholders, and are motivated to deliver superior quality services that exceed expectations and promote customer satisfaction. This is achieved by investing in and maintaining highly skilled, qualified employees, procuring and selection of reputable products and competent service providers.

### OBLIGATIONS

RMP's Managing Director and all levels of the company are committed to the principles of Quality Management and continually improving the efficiency and effectiveness of our Integrated Management System by review and update. This overall system and process is pivotal to our business and provides assurance to our clients and stakeholders that all works delivered by RMP will be of a consistently high standard.

RMP is committed to maintaining certification/accreditation to:

- Quality Management System ISO 9001:2015
- Painting Contractor Certification Program – PCCP – Classes 3, 4, 5B (Full) and 6 (Full).

RMP establish, monitor, communicate, deliver and review company quality objectives to contribute to exceed client expectations and conform to relevant legislative standards.

Retaining RMP's excellent reputation by delivering client requirements on time, to specification, at a competitive price, whilst producing a defective-free product. This can only be achieved by constant application of a quality approach to our company.

Raymond W Ellis  
Managing Director
